Professional Summary

Aspiring Python Full-Stack Developer and MCA student with a strong foundation in Python, Django, JavaScript, SQL, and Object-Oriented Programming. Skilled in building responsive web applications and backend services using modern development practices. Passionate about creating scalable, user-friendly solutions and continuously learning new technologies. Eager to contribute technical skills and problem-solving abilities in a dynamic software development environment.

Skills

Programming: Python, SQL

Backend: Django, Django Rest Framework

Frontend: HTML5, CSS3, JavaScript, Bootstrap 5, React.js

Tools: Git, GitHub, Postman, Visual Studio Code

Soft Skills: Problem Solving, Teamwork, Time Management, Communication

Experience

Software Development Intern

Oct 2024 – Apr 2025

Visval Career Solutions Private Limited

- Developed responsive web pages using HTML5, CSS3, JavaScript, and Bootstrap 5 for business and portfolio websites.
- Assisted in backend development using PHP and MySQL for database connectivity, form handling, and data management.
- Maintained template-based websites, including e-commerce and portfolio projects, ensuring functionality and performance.
- Collaborated with developers and designers to deliver client requirements and functional web solutions within deadlines.

Projects

E-commerce Web Application

Django, Python, HTML, CSS, Bootstrap, SQLite

- Built a full-stack e-commerce web application using Django with a responsive and database-driven architecture.
- Structured the application into separate Django apps for Authentication, Products, Checkout, and Orders to improve modularity and maintainability.
- Integrated secure user authentication with registration, login, logout, and session management.
- Designed product catalog, detailed product pages, similar product recommendations, shopping cart, checkout, and order processing features.
- Integrated dynamic templates and reusable components to enhance code reusability and deliver a consistent user experience across devices.

Flight Booking Web Application

Python, Django, HTML, CSS, Bootstrap, SQLite

- Created a full-stack flight booking application using Django with responsive user interfaces and database-driven functionality.
- Implemented end-to-end flight booking workflows, including flight search, passenger management, booking creation, and cancellation using Django ORM, Forms, and Model Forms.
- Incorporated user authentication with registration, login, logout, profile management, password reset, and forgot password functionality.
- Enabled image upload functionality and optimized data management using Django ORM with SQLite database integration.

Education

Master of Computer Applications (MCA)

Alagappa University

2024 – 2026

CGPA: 8.12

Bachelor of Science in Mathematics

Alagappa University

2021 – 2024

CGPA: 8.40

Certifications

- Python Full Stack Development - Qspiders
- Advanced Diploma in Python Programming (ADPP)
- Fundamentals of UI/UX Design - Coursera
- Full Stack MERN Development
