Professional Summary

Aspiring Full-Stack Developer and MCA student with a strong foundation in Python, Django, React.js, JavaScript, SQL, and Object-Oriented Programming. Skilled in building responsive web applications and backend services using modern development practices. Passionate about creating scalable, user-friendly solutions and continuously learning new technologies. Eager to contribute technical skills and problem-solving abilities in a dynamic software development environment.

Education

Master of Computer Applications (MCA) Alagappa University	2024 – 2026 CGPA: 8.12
Bachelor of Science in Mathematics Alagappa University	2021 – 2024 CGPA: 8.40

Skills

Programming: Python, SQL
Backend: Django, Django REST Framework
Frontend: HTML5, CSS3, JavaScript, Bootstrap 5, React.js
Databases: MySQL, MongoDB
Tools: Git, GitHub, Postman, Visual Studio Code
Soft Skills: Problem Solving, Teamwork, Time Management, Communication

Experience

Software Development Intern <i>Visval Career Solutions Private Limited</i>	Oct 2024 – Apr 2025
- Developed responsive web pages using HTML5, CSS3, JavaScript, and Bootstrap 5 for business and portfolio websites. - Assisted in backend development using PHP and MySQL for database connectivity, form handling, and data management. - Maintained template-based websites, including e-commerce and portfolio projects, ensuring functionality and performance. - Collaborated with developers and designers to deliver client requirements and functional web solutions within deadlines.	

Projects

E-Commerce Platform	<i>React.js, Node.js, Express.js, MongoDB, Razorpay</i>
- Built a full-stack MERN e-commerce application with CRUD operations and an admin dashboard for managing products, categories, and orders. - Developed RESTful APIs using Node.js and Express.js with JWT-based authentication and role-based authorization. - Developed reusable React components to improve code maintainability and user interface consistency. - Integrated MongoDB using Mongoose for efficient data storage and retrieval. - Implemented secure Razorpay payment integration and connected React frontend with backend APIs.	
Flight Booking Web Application	<i>Python, Django, HTML, CSS, Bootstrap, SQLite</i>
- Created a full-stack flight booking application using Django with responsive user interfaces and database-driven functionality. - Implemented end-to-end flight booking workflows, including flight search, passenger management, booking creation, and cancellation using Django ORM, Forms, and Model Forms. - Incorporated user authentication with registration, login, logout, profile management, password reset, and forgot password functionality. - Enabled image upload functionality and optimized data management using Django ORM with SQLite database integration.	

Certifications

- Python Full Stack Development - Qspiders
- Fundamentals of UI/UX Design - Coursera
- Full Stack MERN Development
